THE TICKET.

The ticket nominated at the Republican County Convention Tuesday is one that represents the wishes of a majority of the people of Washoe county. The entire list of nominees has been well and carefully chosen and that they are known to be capable of ably and efficiently performing the duties of their respective offices, will be amply shown when they carry the Republican banner to victory on the 4th of next November.

The ticket represents an able body of men who have the reputation of being workers, and whatever be their positions, whether in the halls of the State Legislature or in the administration of the affairs of Washoe county, there need be no fear but that they will do their duty faithfully and well.

In the Legislature, this being in some respects the most important session of that body in the history of Nevada statehood, we want men who are capable of understanding the needs of our commonwealth, and who can and will apply the proper and necessary remedies. We want men who have business qualities, tact, shrewdness and honesty. We want men who will not make disastrous mistakes, who have read the Constitution of Nevada, and who can cope with the powers to prevent the prostration of Nevada to a few monied corporations. We want men who can return from the Capitol with a clean record. The men nominated upon the Republican county ticket, it is believed, are men of this stamp.

There is no division in the Republican ranks. It is a representative body of men, selected without trick or favor and has the harmonious support of the entire Republican party of Washoe county, which will carry it to successful election.

THE TICKET.

The Evening Gazette endorses the Republican county ticket by saying:

The Republicans have met in convention and selected a good ticket to be voted for in November. The nominees for State Senator, M. D. Foley, is a man of extended legislative experience, and will, if elected, undoubtedly use his influence for the best interest of the county.

The nominees for Assemblymen are all good men. Wm. Thompson is a man of large experience, both in legislative halls and the business world, and is eminently qualified for the important trust. R. H. Kinney is also well fitted for the duties, for he is honest, and that is a very essential qualification. R. C. Leeper is a young man full of promise and has his life before him, and will guard his reputation zealously.

William Caughlin, the nominee for Sheriff, needs no word of praise, but we will say that he is a man of unquestioned integrity, and has the ability to conduct the office as it should be conducted. He should be elected by a majority of three hundred, and he undoubtedly will be for his word is his bond, and the taxpayers will have the satisfaction of knowing that everything in his department will be well and faithfully performed.

In H. W. Higgins, the party's nominee for Clerk, the Convention selected wisely, for a more competent man cannot be found in the county.

In A. G. Fletcher, the candidate for Assessor, the party has a man that is fully acquainted with values, strictly honest and in every way qualified for the position. He is an old soldier, too, and was on the right side of the conflict. He is worthy the support of every voter in the county, and if he is defeated it will be because he is traded off.

W. H. Young, the nominee for Recorder, has occupied public positions too long to require any introduction to the people, and the same may be said of D. B. Boyd, the candidate for Treasurer.

For Long Term Commissioner D. W. O'Connor is a strong man and deserving the party's support, and so is William Pearson, the Short Term man.

Frank H. Norcross is a native son of Nevada, bright and studious, and he will make a good County Surveyor.

J. V. Peers knows how to sit on a corpse as well as the next man, for he has had twenty years' experience and has always done his duty.

MORMONISM.

Mormonism has been compelled to amputate its own member. The protests of society and the enforcement of the civil law have at last compelled the Mormon sect in convention at Salt Lake to formally revoke the polygamy tenet of their faith. When the elders were made to suffer the rigor of the law against bigamy, it took but a short time to convince them of the error of their ways which, however, all the protests of civilization had been expended upon in vain. Mormonism has long been a blight upon society. Its most objectionable feature was the practice of polygamy. The condition of the followers of that sect was enough to rouse the indignation of enlightened peoples that they were allowed to exist in a civilized nation.

Spokane Falls has an organized gang of youthful thieves, who have been operating on an extensive scale. Detectives have arrested three of the ringleaders, who are all under 18 years of age. They are for the most part sons of respectable citizens. Five hundred dollars worth of stolen property has been recovered.

Hon. H. F. Bartine, Nevada's Representative in Congress, arrived in Reno Tuesday evening and departed yesterday morning for his home in Carson City. He was accompanied by his family.

The Government has decided to return the Chinamen held at Port Townsend, Wash., on account of illegal entry, to the Flowery Kingdom at its expense.

THE TARIFF.

An Analysis of the New Law Made by the Republicans.

The Republican Congressional Committee has issued a campaign document giving a careful analysis of the McKinley bill. They say the internal taxes on tobacco have been materially reduced. The free list has been enormously increased by the addition of practically every article known to our commerce that is not or cannot be profitably produced in this country, and the dutiable list has been thoroughly revised, so that the revenues necessary to carry on the Government shall be collected as largely as possible from foreigners in return for the privilege of selling their goods in our markets.

The McKinley bill that the Democrats are now ranting and raving about has no existence whatever. The effect of the changes in rates will in no case increase the cost to the American consumer of a single article which can, with any propriety, be called a necessary household expense. So far as the increased cost to retail buyers is concerned, the people will never know that a tariff bill has been passed. All this Democratic talk about "increased taxation to the people" is nothing but a downright falsehood.

THE SOUTHERN PACIFIC.

C. P. Huntington Declares He Does Not Contemplate Changes.

C. P. Huntington says he expects to start for the Pacific Slope just as soon as his business in New York permits. When asked if there was any foundation for the statement in some of the San Francisco papers that his advent there will be followed by another shake-up of executive forces in the Southern Pacific, Huntington said he was not aware that any shake-up was necessary. He contemplated no changes, and he should not make any unless he found persons drawing money from the road who were returning no equivalent therefor. He was determined to run the road on business principles and keep it out of politics.

A GOOD PRECEDENT.

The Carson Tribune has this: Judge Hawley is establishing the same record in the U. S. Court which he so studiously maintained when on the Supreme Bench of the State. He will have the Courts respected and its mandates obeyed to the letter. Yesterday the U. S. Court was in session for hearing applications for citizenship, and among the number were three refused. One man presented himself before the Court under the influence of liquor and although the testimony of those who knew the man was sufficient proof of his residence for the required time Judge Hawley refused to grant the certificate on the ground of the man's condition and severely censured the man for appearing before a Court of Justice in such a condition; that the act was not only an insult to the State but to the United States Government.

Two other men were temporarily refused their papers in consequence of their inability to speak or understand English, and the apparent eagerness of the interpreter to push them through.

If anything was needed to prove the ability and determination of Judge Hawley, surely his acts here referred to should be sufficient, and will give more satisfaction than all his previous judicial decisions, for all recognize the necessity of foreigners acquiring a knowledge of reading the language of the country before requesting citizenship therein. The facilities of acquiring the necessary knowledge are so great that no excuse should be received from any foreigner on ignorance, and the acts of some interpreters have been so scandalous that citizenship by that means must be forbidden, for there is an element crowding into our cities and towns the majority of whose votes are nothing but purchasable commodity. All honor to Judge Thomas P. Hawley for taking so decisive a step at a time when the reform was so much needed.

IF A BODY MEET A BODY

The result is a collision, whether "coming from the eye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread disease that attacks us on the track. Women especially are liable to bear the brunt of many collisions and afflictions than men. In all cases of nervousness, periodic pains, sick headache, congestion, inflammation, or ulceration and all "female weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, that gives a positive guarantee from the manufacturer, that it will give satisfaction in every case, or money paid for it will be refunded. PLATFORM.

The Republicans of Washoe county, in convention assembled, do hereby declare their faith in, and allegiance to the doctrines and principles of the Republican party, which in the future, as in the past, will continue to vote for the people the broadest and most enlightened reform, consistent with safety to the State, and the perpetuity of our form of government.

We most heartily endorse the platform adopted by the Republican State Convention at Virginia City as a manly and conservative declaration of principles suited to the necessities and demands of the people of this State, and in every way in contrast with the billingsgate and rabidity of the Democratic indictment which was presented by the Grand Jury of that party, in their recent State Convention.

We recognize in our delegation in Congress, Messrs. J. P. Jones, Wm. M. Stewart and H. F. Bartine, able and efficient public servants, who have been untiring in their efforts to promote the interests of the people of Nevada, as well as those of the whole country; and we desire to accord to them that full and hearty support which their valuable services so justly merit.

That we commend the wise and conservative administration of President Harrison, who has redeemed the pledges so solemnly made to the people in the National Republican Platform, and has fully justified the confidence reposed in him by the suffrages of the American people.

We endorse the action of the Republicans in Congress in increasing the tariff on wool, so as to encourage the production of staples hitherto imported, which Grover Cleveland, in a special message, recommended to be placed on the free list; and in the passage over Democratic votes of a bill which has increased the value of the product of our mine a more substantial value of our wheat crop, one hundred millions to the corn crop, and two hundred millions to the corn crop of the United States.

It is with the most profound sorrow that the Republicans of Nevada received the news of the death of Hon. C. C. Stewart, late Governor of this State. We deplore his loss in the counsel of the party, where he was every ready by word and deed to advance her interests in every honorable way; and the whole people of the State have been deprived of the services of an honest and conscientious public servant, his family of a kind, indulgent and affectionate husband and father; and to the be-

NEW TO-DAY.

reaved members of his household we extend our most profound and sincere sympathy. It is the sense of this convention that the best way to promote and foster the upbuilding of Nevada is to provide and maintain a good government, with a system of low taxation, and to this end we favor the most rigid economy in every department of the public service, and the enactment of such legislation as will secure to the people of the State the lightest possible burdens, without material injury to the administration of affairs.

We demand that the membership of the Legislature be reduced to forty, their per diem to six dollars per day and their mileage to actual and necessary traveling expenses in going to and from the State capital.

We are in favor of the donation of the public lands to the State to be used for a basis of water storage and reclamation; at the same time we call attention to the fact that a large portion of our previous grant is unexcused, and can be used for these purposes without waiting for additional appropriations.

We are in favor of the use under wise plans and safe management of the large fund lying idle in the State Treasury in a way to quicken it into life and start it through our great valleys, reclaiming one after another, making homes for new citizens, and adding to our taxable property; and we recommend that our Senators and Assemblymen give this matter their careful attention adopting the system which promises the greatest good to the State, giving it their solid support.

We are in favor of the acquisition, either by State or county, of the control of the water storage sites of the Truckee basin, so that they may in time be made useful to the public, without the possibility of their falling into the hands of private monopolists.

We are opposed to bonding Washoe county for any purpose until the question is first submitted to the qualified electors of the county or district upon which the bonds are to be issued for their approval or rejection.

It is the sense of the Republicans of Washoe county that the Constitutional Convention is necessary in order to secure such reforms in the public service as our small population and material resources demand; and we, therefore, most earnestly urge upon the voters of this county to cast their ballots in favor of such a convention at the coming election.

A Pioneer Gone.

Tuesday morning at 5 o'clock died, and yesterday was buried, O. C. Lovett, one of the pioneer stage drivers of the Golden West. For fifteen years he has been a well known figure about Reno, known to everyone under the pseudonym of "Smoky." He arrived in San Francisco forty years ago last August from New York on the ship Chelsea, and for many years was a driver for the California and Pioneer Stage Companies. In the list of celebrated Knights of the Ruin published in the San Francisco Chronicle some years since, the name of "Smoky" figured in the group, which was led by "Hank Monk." His life was one intermingled with all the excitement and romance of those early days of the West and doubtless, were it written up, would prove in many places more fascinating than a novel.

THE ELECTION LAW.

Nevada Statesmen Leave It Somewhat Ambiguous.

A pamphlet certified to by the Secretary of State as being a full, true and correct copy of the existing statutes in relation to registration and election in the State of Nevada, as the same appears in the enrolled Acts on file in his office, has been received by the County Clerk for distribution among the several inspectors of election. Section 2 of an Act relating to elections, page 11 of this pamphlet, says, among other things:

"It shall also be the duty of said Boards of Commissioners, at their first regular meeting in October preceding each general election (and fifteen days preceding each special election), to appoint three capable and discreet persons, possessing the qualifications of electors (who shall not all be of the same political party), to act as inspectors of election at each election precinct; and the Clerk of said Board shall forthwith make and deliver to said inspectors personally, notice thereof in writing or deposit the same in the postoffice, registered and postage prepaid, directed to the Registry Agent of the precinct for which each of said inspectors is appointed, and it shall be the duty of the Registry Agent, within ten days after the receipt thereof, to serve the same upon each of said inspectors of election." Section 4 of the Act reads:

"It shall be the duty of the Board of County Commissioners to cause their clerks to furnish the Sheriff with poll books, who shall deliver the same to one of the inspectors at every election precinct in the county, at the time of serving the notices on said inspectors, at least one day before the time of holding any election."

The last section quoted is somewhat ambiguous, but as it evidently means that the Sheriff as well as the clerk shall deliver notices of their appointment to the inspectors it is so construed by the officers here.

FRIGHTFUL EXPLOSION.

The Dupont Powder Mills in Delaware annihilated—The Shock Felt Thirty Miles Away—A Village a Mile Away Destroyed—Ten Persons Said to Have Been Killed and Twenty Injured.

WILMINGTON, Del., Oct. 7.—An explosion occurred this afternoon at the Dupont Powder Mills, Dupont, Del., seven miles from this city. Details of the disaster are difficult to obtain, but latest advices state that six or more persons were killed and many wounded. The village was partially destroyed. The shock was felt thirty miles away.

An Associated Press reporter hastened to the scene, and has wired that the whole section of works known as the upper yard is a complete wreck. One of the magazines went off first, and the rolling and drying mills near by went off by the concussion and followed in rapid succession. There were at least seven distinct successive explosions. Every building in the neighborhood is reported wrecked or unroofed, or more or less damaged.

Telephone inquiries from Westchester state that the explosions were distinctly heard in that section.

LATER—A messenger has just brought in the following dispatch, which shows that the worst has not yet been learned: "Ten killed and twenty wounded. Rockland is a complete wreck; none of its houses are left standing. Rockland is a village on the Brandywine, fully one mile above the scene of the explosion. It comprises a large paper mill owned by the Jessup & Moore Company and about fifty dwellings, in which chiefly reside mill employees. Its population is about 200. Evidence of destruction at a distance leads to the belief here that the number of killed and wounded is not yet fully ascertained."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-awt-y

Guide Boards.

The Free Lance remarks: Nevada is in a bad way financially—upon this point politicians, editors, teachers and preachers are agreed—nevertheless there is one obligation the State is under to its citizens that cannot be excused on the plea of poverty; that is, to see that guide boards are set up at every fork of the road in the State. The amount of valuable time and rich opportunities lost and the suffering of weary, hungry and thirsty beasts, on account of travelers losing their way would be something amazing if it could be computed for a year. A week's journey by private conveyance in an unfamiliar part of the country would convince anyone of the facts and needs of the case.

Leaving Reno.

Mrs. J. H. Kinkaid, daughter and son, leave Reno to-day to take up their residence in Virginia City, where Mr. Kinkaid and Allen are employed. They have long been residents of Reno and much regret is expressed at their leaving. What is Reno's loss is the Comstock's gain.

THE LEGISLATIVE TICKET.

The Elko Independent says.

A number of the best citizens in Elko county are in favor of electing a non-partisan Legislative ticket, and the same course of procedure is recommended in Humboldt county. On this subject the silver State of recent date, says:

Considerate men of all parties deem it of greater importance to the taxpayers to have representatives who will devote themselves to reducing State and county expenses rather than the advancement of party interests. The State and many of the counties which compose it are in debt. The rate of State taxation is the highest in the Union and in several counties taxes are higher than the interest rate on approved securities in many of the older States.

"Let the Central Committee or conventions of both parties select three good and true men from both parties to represent this county in the Assembly, men who will be under no party obligations, except to vote for United States Senator, and the Silver State will, to the best of its ability, endeavor to show the people of Humboldt why they should be elected. In State matters, partisanship should be a secondary consideration to everybody but the professional politician while the reduction of expenses is of the greatest importance to every Nevada."

CENSUS RETURNS.

California's Population Announced as 1,201,002.

Census announcements have been made as follows: State of Indiana, 2,189,036, an increase in the past ten years of 210,729; Michigan, 2,089,792, an increase of 452,855; New Mexico, 144,362, an increase of 25,297; California, 1,201,002, an increase of 330,308; city of Santa Rosa, 5,216, an increase of 1,610; city of Valparaiso, 5,904, a decrease of 83.

During the last ten years Eureka increased 2,193, Napa 636, Petaluma 360, Red Bluff 434, and Woodland 812. The following were decreases in the ten years: Chico 408, and Marysville, 335.

Nevada's Governors.

The Virginia Chronicle says: Since the admission of Nevada into the Union the people have elected five Governors of the State.

The first, H. F. Blaisdell, is now a resident of the city of Oakland in California. His successor for two terms, Lewis B. Bradley, sleeps the eternal sleep near the homes of his children and grandchildren, in the little cemetery on the knoll overlooking the town of Elko in Nevada.

John H. Kinkaid, Governor Bradley's successor, is living, and it is understood has taken up his permanent residence in Washington, in the District of Columbia. Jewett Adams, the fourth Governor, has a comfortable dwelling in Carson, but for the last two years he has spent most of his time among his flocks and herds in Nye and White Pine counties in the State of Nevada.

Charles C. Stevenson, the last Governor of the State, elected by the people, reposes peacefully in Mountain View Cemetery, in the city of Oakland, in the State of California.

Frank Bell, the present acting Governor, resides at Reno, in the State of Nevada.

Carson Primaries.

The Republican County Convention primaries on the Crawford plan at Carson yesterday were rfd-hot, there being several tickets in the field. About 700 votes were cast, and the following got away with the best of the proposition: State Senator, T. B. Ruckey; Assemblymen, Bob Logan, Mark Folsom, Charley Bicknell; Sheriff, Wm. Bottsfield; County Clerk, W. H. Downs; Recorder, McCabe; District Attorney, T. D. Edwards; Treasurer, Leslie F. Bell; Public Administrator, G. W. Hawkins; Assessor, J. D. Kersey; Justice of the Peace, Hawthorne.

Young Men's Republican Club.

A number of young men on the street yesterday were agitating the proposition of organizing a Young Men's Republican Club. The idea is a good one and should be carried into effect. Reno has plenty of good material in her young men and a rousing campaign club will give many of them a chance to show of what metal they are made.

Committee Meeting.

A meeting of the members of the Republican County Central Committee will be held this evening, at 7.30, at the office of Baker & Wines, for the purpose of organizing, and the transaction of other business. All members are requested to be present.

A Large Loaf of Bread.

The President has a 50-pound loaf of bread. It is three feet square and one-half foot deep; but it is not as large as the great cheese which was sent to President Jefferson by a four-horse team from New England.

The Free Lance observes:

The party prohibitionists are advertising a party mass meeting for Oct. 15th. The prohibition party in Nevada is yet small, but "Where the vanguard camps to-day the rear will march to-morrow." The cause of prohibition is sure to win, and the steadfast minority will yet rejoice among the victors. With a resolute determination to buy no votes, sell no favors, and to outlaw the liquor traffic, the prohibitionists, while they may receive the commendation of interested politicians, will still receive the respect and encouragement of all those most wisely interested in the financial and moral welfare of our State.

The Maverick National Bank of Boston has increased its surplus from \$800,000 to \$800,000, while its capital remains at \$400,000. The Maverick is one of the best known and most reliable banks in the United States, and its business is constantly increasing. Its President, Mr. Asa P. Potter, is everywhere recognized as one of the ablest and most successful financiers in the country.

DIED.

NAGLE—In Reno, Nevada, October 7, 1890, John Nagle, a native of Coburg, Canada, aged 21 years.

WHAT IS

SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sores neck from the time she was 23 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J.

A Child's Test.

A retired general of the Union army, who lives in a small town in the interior part of the state, was talking about New York's children. "I am a countryman myself," he said, "and I have a small acquaintance with the ways of the town. Perhaps that is one reason why I can never get accustomed to the extraordinary wisdom of the little people of New York. Like many another old fogey I am still practically afraid of a waiter. When I go into a restaurant it makes me nervous to have a waiter standing around and watching me and with a crowd around, and I find it almost impossible to order anything else than beefsteak and fried potatoes from a bill of fare. A few days ago I took my little niece down to Governor's island to see some of the big guns and other paraphernalia of war. On the way back in the elevated train she said:

"Uncle, if you are a general you must have a great deal of money."

"What makes you think so?"

"Because generals own forts and islands and big cannons and all that. It seems to me that if you have so much money you ought to spend some of it on me."

"How?" I asked.

"Well," said the little girl thoughtfully, "I don't know which I would rather have, a new pair of gloves or lunch all alone with you at Delmonico's. I think, however, I prefer Delmonico's." "We discussed it all the way to Twenty-third street, and as she finally made up her mind to the luncheon I took her over to the restaurant and placed her in a big chair—she is less than 8 years old and her chin barely rose above the edge of the table—and prepared for lunch. She took the bill of fare, glanced over it and glibly ordered raw oysters, shad roe, cucumber salad and broiled chicken, with asparagus and green peas, and teased me half an hour to give her a sip of champagne. Imagine any child 8 years of age anywhere else ordering a lunch of that sort. She succeeded better at her time of life than I, after sixty years of work in this vale of tears, and had acquired one of the most difficult feats of civilization, that of ordering a dinner."—Blakely Hall in Brooklyn Eagle.

A Picture of Modern Life.

Some half dozen years ago I knew a man who was hard, stern, grasping; who never allowed a dollar to slip through his fingers; whose faithful wife worked early and late that he might not have to spend an unnecessary cent. Many and many a time have I seen her on her knees, cleaning her floor with a brush; I have seen her, too, stand up and put her hands to her back and moan with pain. I have seen her paint her own floors, and paper her own walls, and beat her own carpets, with great, rough hands and red arms bared to the blistering winds. Well, let me tell you how she was rewarded.

After years had worn by in toil and care, with never a caress or a word of appreciation or a ray of pleasure, this unhappy couple bought a lot in a fine locality and builded thereon a beautiful home—one that excited admiration in every breast. It was all finished and elegantly furnished. The lawn was the loveliest in the whole city, with fountains playing out from morning till night; the greenhouse was filled with rare flowers. Oh, each time I passed that house I broke a commandment. When it was ready for occupancy 'he poor, tired, worn out wife sickened, and on the very night she was to have moved into her new house she gave one long sigh and went home to a land whence there is no returning.

In five months her husband had married again, and everything that had been planned with such patient hope and love had to be changed to please the new mistress, while the old one with the broken heart lay with care lined face and hard, work worn hands out in Lone Fir cemetery. This was the first picture of its kind that I ever saw, but I have since found admirable copies of it hanging along the walls of life.—West Shore.

To Purify the Breath.

The freshest of fresh eggs and lemon juice, sugar, almond oil and rose water, mixed with utmost care and cleanliness, stirred and beaten for hours upon hours, smelling delicately as if a rose had been dipped into it some time, should make a tempting cosmetic to create beauty or restore it to itself.

We all feel the charm of "balmy breath" that doth almost persuade justice to sheathe her sword, and this bottle of clear red liquid, with a few drops poured in a glass of water, will so purify the breath and all within the lips that one need not mind how closely the hearer's attention hangs upon them. The same liquid is sovereign for dyspepsia, and reduces the interior to an amiable state very quickly.

It is nice to have something one can depend on to neutralize the breath from a decaying tooth in that state where the dentist cannot work at it, or undo the effects of a sleepless night, which never fails to leave the breath affected. A few drops of such a tincture will often prevent the toothache which comes of eating sweets. In short, a really good tooth wash is the first of cosmetic necessities.—Shirley Dare in New York Herald.

A Clock Louis XVI. Made.

It is stated that some of the Rothschild family have purchased at the high figure of \$40,000, or about \$23,600, the identical clock manufactured by the royal hand of the ill-fated Louis XVI. in the days when he was more actively and congenially employed in his workshop than in his council chamber. This curious timepiece for a long time was a historic heirloom in the possession of an English family, and it has been bought at St. Petersburg.—Paris Cor. London Telegraph.

INSURANCE.

THE MANHATTAN Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a match

BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar; SECOND, in case of death while making these small deposits, the life insurance company will pay, just when most needed by the family, the

Full Amount

Of the sum insured, amounting to 10, 20, or even 50 times as much as has been deposited; or on the

Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest.

Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on it? The \$300 per year being only 3 per cent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, that if he dies while making these payments—even after one only has been made—

No Further Payments Shall be Required

And the full title in fee simple to the entire farm shall at once be given to his family; and 2d, that if at any time after the three years during the twenty years he shall be unable to continue the payments and from sickness or any misfortune, that then he could discontinue any further payments and have in fee simple such portions of the farm as he has paid for; thus, if one-fourth of the payments had been made, he would own one separate fourth of the farm, etc., and at the same time the farm be entirely free from all claims of creditors, under all circumstances, not even to be reached by writ of execution or attachment issued by any court, while if living to the end of the twenty years and the annual payments have been made, the

Entire Property in Fee Simple

Is secured.

Now the MANHATTAN LIFE INSURANCE COMPANY offers all this and more, for instead of offering LAND on these terms, which is often eaten up by legal expenses and fees in case of the death of the purchaser, or swallowed up by a mortgage given to secure deferred payments, thus losing the whole amount paid in and leaving the family destitute, or dependent, it offers a

Specific Bond Secured by Millions

of First-Class Securities.

Agreeing to pay MONEY on the same terms and conditions as above—the cost per year varying at different ages, but otherwise substantially the same terms as above stated, while the sum to be paid at the end of twenty years will be increased by dividends and compounded interest for the full term, thus making the investment a very PROFITABLE and ADVANTAGEOUS one.

Inquiries concerning the bonds of this company will receive prompt reply if addressed to

PLATFORM AND RESOLUTIONS

Adopted by the Republican State Convention held at Virginia City, Nevada, September 4, 1890:

The record of the Republican party is its best platform. No political party in human history has taken such advanced positions for the equality of races, none has so wedded the administration of authority to the needs of business, none has so managed the affairs of a State as to encourage the development of a continent, none has so elevated a nation and so contributed to the happiness of man, none has so honestly and economically carried on the routine duties of office.

In all things it has been the direct opposite of the Democratic party. Grand in its ambitions and impulses, firm and resolute in its consistency, strong in its devotion to principle, it is now, as it has been from its birth, the representative of all that is noblest and best in its own country and hope and promise of a better future for the human race.

The battles for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the National credit, its efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization this or any other country ever had.

The names of its heroes are legion, and the deeds of its heroes are the history of the Republic. The Republican of Nevada, in convention assembled, heartily indorses the acts of the Fifty-first Congress, which has made great advances in our need and needed legislation than any since the war.

The crimes of filibustering, so often resorted to by the Democratic party for the purpose of defeating legislation and the prolonging the wheels of government, has been done away with by the genius of Reed, McKinley and his associates, and the offenders taught that Congressmen are paid by the people for making good laws and not bad politics.

It had by a strictly party vote, placed the silver question that will lead naturally to free coinage and disarm all opposition among manufacturers.

POLITICAL.

POLITICAL.

the tariff in a patriotic and business like way, such as will protect the interests of labor and at the same time encourage capital to enterprises that will furnish it with employment at good wages.

Not States which are denominated as business have been admitted to the Union, and the grip of Tammany Hall upon the Presidency broken.

It is a fact that Cleveland's Administration have been broken up and made to obey the laws of honest commerce.

Efforts are being made to prevent or punish frauds and imitations in elections.

A navy of boats provided for and suitable pensions granted to prevent suffering among the sick and wounded heroes of the war.

Provision is being made for the reclamation of the arid regions where the population policy of free homestead free schools can be extended.

Unearned land grants are being restored to the public domain and the land thrown open to settlement, and in all things the pledges of the National platform are being amply redeemed.

We indorse the Administration of President Harrison and commend his conservative course as striking in contrast with his predecessor in office.

During the term of Administration, silver and wheat touched their lowest price ever known, and farmers burned their corn for fuel. Trusts were stimulated, business discouraged, strikes provoked, the mail service was denuded, and business found itself oppressed instead of being encouraged by the methods of the Government, whose whole business should be to benefit the country.

To-day silver is advanced and all the products of labor are rapidly rising, and while the Democratic officials may perhaps be innocent of intentionally destroying our prosperity they are culpable for the results of blunders they would be for crimes.

Under the Democratic rule, Chinese and contract labor are kept out of the country, American laborers and mechanics protected, agriculture is encouraged by a bounty, and the intelligent conducted for the benefit and the laws of the country are in a wise, firm and patriotic manner.

In presenting its ticket to the voters of Nevada, the Republican party pledges the nominees whom it endorses to secure its use in the irrigation of fertile lands now lying idle.

We pledge our nominees to a system of State improvements which shall save the water now running to waste and devote means to secure its use in the irrigation of fertile lands now lying idle.

We indorse the measure introduced by Senator Stewart proposing to cede the lands within our limits to the State for the purpose of improving our water storage and irrigating systems, and we appeal to Congress and the President to grant this much needed aid.

We indorse the course of our Senators and Representatives in Congress, and commend their efforts to establish, on a better basis, the use of silver as money, and to our uncompromising demand for the free coinage of both gold and silver and their equal station in our National currency.

Winnipeg. The practice of letting mail contracts in this State to non residents, through the use of sub-contractors, has resulted in an inferior and impaired mail service.

Resolved, That our delegation in Congress be requested to procure, if possible, the prompt payment of a lay to prevent such abuses in the future.

We are in favor of the improvement of the wages of American labor by restricting immigration from foreign countries, a thorough revision of our naturalization and land laws, the construction of naval and coast defenses, the fostering of free schools and popular education, the enforcement of a free ballot and a fair count, abolishing the defenders of our country, the protection of every citizen at home and abroad, the fostering of a policy that will extend our commerce, the settling of all foreign complications by arbitration, and liberal appropriations by Congress for the construction of water reservoirs and a system of irrigation.

Resolved, That we are in favor of the Australian system of ballot.

Resolved, That as the coming election the question as to whether or not a Constitutional Convention will be held to be submitted to the people, that we earnestly invite calm and thorough discussion of the question during the campaign.

Resolved, That it is the policy of the Republican party to extend our commerce, to secure all safe and possible retractions in public affairs, and especially in dispensing with unnecessary offices and use of deputies in adjusting salaries upon the basis of the least possible cost, crossing the per diem and mileage and shortening the session and lessening the number of members of the Legislature, in the reduction of taxation and in consolidating county offices and abolishing county expenses, and to this end we pledge the members of the convention and earnestly ask that the members of the several county conventions be likewise guided.

Resolved, That we are in favor of the Australian system of ballot.

Resolved, That as the coming election the question as to whether or not a Constitutional Convention will be held to be submitted to the people, that we earnestly invite calm and thorough discussion of the question during the campaign.

Resolved, That it is the policy of the Republican party to extend our commerce, to secure all safe and possible retractions in public affairs, and especially in dispensing with unnecessary offices and use of deputies in adjusting salaries upon the basis of the least possible cost, crossing the per diem and mileage and shortening the session and lessening the number of members of the Legislature, in the reduction of taxation and in consolidating county offices and abolishing county expenses, and to this end we pledge the members of the convention and earnestly ask that the members of the several county conventions be likewise guided.
